

100kWh Data Center Rack for Emergency Rescue

Highvoltage Battery

100kWh Data Center Rack for Emergency Rescue

100KWh HV Lithium Battery Rack

With the 100KWh HV Lithium Battery Rack, you can control production and energy consumption. Set your preferences to optimize your energy independence, prevent power outages or save energy.

Data Center Racks , Backup Power Products

Our network and server racks save you costs, reduce footprint, and increase the performance, efficiency, scalability, and reliability of your critical infrastructure.

Micro Data Center

Delta's modular datacenter solution offers a datacenter environment that provides safe equipment operations within the racks, and supports the development and standardizing of micro datacenters

100KWh HV Lithium Battery Rack

With the 100KWh HV Lithium Battery Rack, you can control

Scalable battery storage_ combining 100kWh to 215kWh racks

By combining multiple battery racks, users can

Optimize Data Center Space with Reliable Server Racks and

Starting with flexible, easily installed, adaptable and pre-configured customized server racks and network cabinets saves you costs, footprint and it increases the performance, efficiency, and

create a storage system that matches their specific energy requirements, whether it's for backup power, peak shaving, or fully off-grid

100kWh Rack-Mounted Commercial & Industrial Energy Storage System

Built with high-safety LFP cells, it supports peak shaving, load shifting, emergency backup, and solar energy storage. Delivers stable performance with advanced BMS protection and intelligent

High Voltage Industrial Rack Lithium Battery 100kWh 200kWh 215kWh

High Performance: With a capacity of 14.336kWh and the ability to support over 8000 cycles, the RACK HV PRO offers long-lasting energy support, ensuring smooth and uninterrupted operations.

How Do Rack Batteries Enable Scalable Energy for Disaster Recovery?

Rack batteries provide instant failover during grid failures, minimizing downtime for hospitals, data centers, and emergency services. Their high discharge rates support heavy loads, while compatibility

100kWh~3000kWh Modular Energy Storage Battery Solution

This solution uses a rack-mounted battery paired with PCS (Power Conversion System) to form a flexible and scalable energy storage solution, which can provide different capacity

Graphene UPS & Backup Power Rack , ENRACK

With a 100kWh capacity and up to 350kW burst power, this system is ideal for data centers, government facilities, and essential systems, cutting physical footprint by 85% and reducing utility costs significantly.
