

Algeria solar Panel Assembly Factory

Overview

Algerian holding Zergoun Green Energy has inaugurated a 200 MW solar module factory in southern Algeria. Located in the Sahara Desert province of Ouargla, the factory is equipped with lines provided by Spain's Mondragon Assembly and has an annual production capacity of 200 MW. This national drive is creating incredible opportunities . From development to operation and maintenance, we master all the stages of a project. By including a local content clause, the North African nation aims to build an industry around renewable energy. Our professional photovoltaic solutions are . Algeria is now home to a solar module assembly fab with 180 MW annual production capacity (in the picture) which was recently inaugurated by the Ministry of Industry and the Ministry of Energy Transition and Renewable Energy.
