

App corresponding to Chint photovoltaic inverter

Home Energy Storage (Stackble system)

High Efficiency

Easy installation

Safe and Reliable

Perfect Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem

- LFP battery, safest and long cycle life
- Stackable design, effortless installation
- Capable of High-Powered
- Emergency-Backup and Off-Grid Function

Overview

The Chint Connect App is a versatile tool for configuring inverters and troubleshooting with LinKit hardware. Open the Mac App Store to buy and download apps. The Chint Connect App Connect the inverter through wifi or Bluetooth, configure the inverter parameters through the App, upload the power generation data and power generation status information of the inverter to the server, and apply the Internet of . Chint Connect App gives the user access to complete the installation, configuration, and troubleshooting of the Flex Gateway and inverters. The site installation by using laptop, oscilloscope or other assistance tools in the past is now replaced by a smartphone. Add HVRT Triggering Threshold (V); change Low Voltage through to Fault Ride Through function, and modify LVRT Triggering Voltage to LVRT Triggering Threshold (V). The app has been available since November 2019. It's currently not in the top ranks. ChintHome for Android on Google Play.
