Overview

Determined to host a "Green, Smart, Economical and Ethical" Asian Games, Hangzhou has arranged for all 65 venues and office facilities for the event to run fully on green electricity from March through December this year. Hangzhou city, capital of east China's Zhejiang province, is gearing up to make the 19th Asian Games, which is slated to run from Sept. For the first time in the history of the Asian Games, the Hangzhou Asian Games, which is scheduled to kick off in late September, will . From green sporting venues equipped with wind, photovoltaic and other clean energy sources to technological applications including driverless buses and digital torchbearers, green technology has become one of the brightest spots of the upcoming 19th Asian Games, to be held from Saturday to October . Located in Zang Autonomous Prefecture of Hainan, Qinghai Province, a single-crystal double-sided photovoltaic component averagely generates 2.
