

Austria s dedicated solar container battery company

Overview

Solarcont, an Austrian startup, has unveiled Solarcontainer, a portable PV generator that can function as a mobile solar plant independent of the electrical grid. The large-scale storage system solution is specially designed to connect seamlessly with existing or newly installed PV systems so that you can maximize your energy production. ↯ Proudly produced in Europe, our systems can be unfolded, installed, and connected within hours, bringing reliable energy . We are proud to announce the successful installation of a containerized lithium battery energy storage system in Austria, shipped directly from our manufacturing base. This system is realized through the unique combination of innovative and advanced container .
