

Bc solar panel price

Overview

On average, the cost of installing roof-mounted solar panels in BC is between \$2. This adds up to \$15,000-19,800 for a 6 kWp system. So, in total, you would need a solar system of about 10 kW, to meet all your energy needs, however, this is not realistic for many residential buildings with limited roof space. Regardless, meeting your energy needs halfway with a 6 kW system . The rebate structure mirrors BC Hydro's program: up to \$5,000 for solar panels (\$1,000/kW, capped at 50% of cost) and up to \$5,000 for battery storage (\$500/kWh, capped at 50% of cost). Enjoy great prices, fast shipping, and expert support to help you harness renewable energy today! Are you a homeowner who wants the switch to an eco-friendly option or a business owner who loves to cut costs?
