

# Brazil invests in energy storage cabinet batteries

## Overview

---

Between 2026 and 2032, Brazil's energy storage battery cabinet market is poised for exponential growth driven by the country's renewable energy expansion, grid modernization initiatives, and increasing demand for reliable energy storage solutions. Flexible generation and correlated solutions, including battery energy storage systems (BESS), are therefore likely to be at a premium in the future. Accordingly, in this article we delve into some key themes regarding the development and exploitation of battery storage solutions in Brazil . Brazil's Ministry of Mines and Energy plans to hold its first auction for electricity storage batteries in the second half of this year. Despite the lack of a legal framework for project operations, companies are moving to expand domestic battery production, diversify business models, and ensure that energy storage is ready to play a central role in the country's . Brazil's long-awaited capacity reserve auction for battery energy storage is scheduled for April 2026, following a year of rulemaking that expanded the expected supply volume and introduced new legal and regulatory constraints.
