

# Chint photovoltaic panel efficiency

Voltage range

636V-876V

Rated voltage

768V

Cell type

Lithium iron phosphate

## Overview

---

Astronergy, the solar module unit of China's Chint Group, has introduced a new tunnel oxide passivated contact (TOPCon) solar module rated at up to 670 W, with a maximum conversion efficiency of 24. Photo-voltaic (PV) module efficiency is a rating your module is given to determine how much sunlight it absorbs and converted into usable electricity. This process is very important for understanding how much energy you will receive from the panels. If the module rating is higher, you will . Their latest ASTRO 5 series uses PERC cells with multi-busbar design - not exactly groundbreaking, but effectively implemented. Note: Your Enquiry will be sent directly to Zhejiang Sunpro Power Technology Co.

## Chint photovoltaic panel efficiency

---

### Specifications and models of Chint photovoltaic panels

As a leading supplier, we offer high-efficiency rooftop photovoltaic panels with 570~595W output, low temperature coefficient, and bifacial gain for optimal energy conversion.
