

East Asia Solar Water Pump Inverter

East Asia Solar Water Pump Inverter

Smart Solar Pump System: Energize Middle East Water Supply

Please click on the picture below to watch the video of how the solar water pump system brings stable water sources and convenient life to people in the Middle East.

About Us

With 15 years of R&D and production experience and 5 advanced production lines, we focus on manufacturing hybrid AC/DC solar pump inverters (0.75kW-500kW, IP65, MPPT 97-99% efficiency).

Solar Pump Inverter Attribute Configuration Guide

Solar pump inverters are specialized power conversion devices that transform DC electricity from solar panels into AC power for water pump motors. For Southeast Asia exporters looking to sell on

Solar Water Pump Inverter

VEICHI, one of the leading solar water pumping inverter manufacturers, provides SI32, SI23, SI21 and SI30 high performance and eco-friendly automatic solar water pump controller at wholesale price.

[Solar Water Pump Inverter, Controller, Drive Manufacturer and Supplier](#)

[DC to AC Solar Water Pump Inverter AC Drive Popular in Middle East](#)

Solar pump Inverter can convert the DC power from solar panels to AC power so to drive various kinds of pumps. Solar pumping Inverter System enables continuously pumping when in good weather.

Solar water pump inverter

A solar-powered water pumping system can find application in tower water supply, livestock watering, and irrigation. It is ideal to find a reliable solar pump inverter manufacturer in

Solar Pump Inverter Manufacturer in China

VEICHI, one of the leading solar water pumping inverter manufacturers, provides SI32, SI23, SI21 and SI30 high performance and eco-friendly automatic solar water pump controller at wholesale price.

Top 10 Best Inverter Manufacturers In Asia

The global awareness of the necessity of using clean energy to enhance a healthy and less polluting quality of life has driven the solar industry and technology worldwide, including in the Asian region. In

Solar pumping inverter

MNE solar pumping inverter is specially designed for watering system. A high converting efficiency of 98% and advanced MPPT technology make the solar energy fully used. It converts DC power into

As a leading provider of single-phase hybrid inverters and solar pump inverters in China, EAST has a deep understanding of the solar pump inverter market and technology. Its products meet
