

Electric vehicle adoption dushanbe

Overview

Dushanbe: The executive authorities of Dushanbe have announced plans to transition the city's entire passenger transport fleet to electric vehicles by 2028. This ambitious plan aligns with global trends towards sustainability and reflects Tajikistan's commitment to reducing its carbon footprint and improving air quality. Understanding local perceptions is crucial for making informed decisions to promote the use of EVs. Ivana Zivkovic, UNDP Regional Director for Europe and the CIS spearheaded the launch of the new eco-friendly car. Dushanbe, 28 February 2024 - As a global leader in the fight against climate change. Zooming through Dushanbe's bustling streets, electric taxis - many sporting Chinese brand logos - have become the heartbeat of Tajikistan's capital.
