## Energy storage power station project company

---

### [Vistra Completes Milestone Expansion of Flagship California Energy](#)

The company owns and operates the 750-MW/3,000-MWh battery energy storage system in Moss Landing, California, the largest of its kind in the world.

### Antora - Home

Antora builds and deploys thermal energy storage to power always-on industrial operations with low-cost energy. Factory-built in the United States, Antora's thermal batteries deliver reliable and cost

### Home , esVolta , Energy Storage Development , Develop, Own,

Focused on sustainability and innovation, esVolta develops, owns, and operates reliable utility-scale energy storage assets across the entire lifecycle - delivering value for utilities, energy

### Power Plant Listing

Following is a list of Power Plants Listed in alphabetical order. Please use the filters on sidebar to refine the list based on technology used by the power plant and the status of the project.

## [Two New Projects Add 1.35 GW of Solar-Battery Capacity to California](#)

Power developer Arevon Energy Inc. is betting big on renewable energy and battery storage in southern California, starting and completing construction this month on two projects

## **Battery Energy Storage Systems , EPC Energy**

We are integrators of Tier 1 battery energy storage systems. We offer fully integrated systems with in-house energy management systems (EMS) and advanced microgrid controllers.

## **Top 24 Energy Storage Companies In California**

Explore energy storage companies in California, including Primus Power and Gotion, providing innovative solutions for sustainable energy management.

## [Moss Landing: World's biggest battery storage project is now 3GWh](#)

Owner Vistra Energy has announced the completion of work to expand its Moss Landing Energy Storage Facility in California, the world's largest lithium battery energy storage system

## **Middle River Power , Leading the Energy Transition**

We've successfully deployed Battery Energy Storage System (BESS) projects at our existing natural gas peaking fleet throughout California,

creating renewable- thermal hybrid energy centers that help

## Plus Power -

Plus Power's battery storage facilities help support America's energy system by providing capacity needs and grid-forming ancillary services as the U.S. experiences record levels of
