

European Energy Storage Delivery System

Overview

Developed as part of the REPowerEU Plan, the platform is the first at European level to map all forms of clean energy storage technologies. The 2025 report highlighted the urgent need to quickly deploy . EASE will now be known as Energy Storage Europe, with a new identity designed to give the sector a stronger visibility. However, despite an exponential growth in Europe's battery energy storage . Paris, France - April 2026 - French energy giant ENGIE is accelerating its energy storage strategy across Europe, expanding its battery energy storage systems (BESS) portfolio to over 1 GW, as part of its broader push to support renewable energy integration and grid stability.

European Energy Storage Delivery System
