## Florida microgrids aaron

---

### **Aaron Tushabe - NFE**

Our stated goal to build community owned microgrids and teach others to do the same. This means our initiatives are not considered "Complete" till we exit and empower the community to energy

### [Power to the People: Microgrid Gives Community Control of Its Energy](#)

The system is scalable and, importantly, storm-resilient. That was proven last year when Hurricane Ian pummeled Florida, leaving more than 2.2 million power customers without electricity.

### **A PRISMA-Based and PICOC-Framed Systematic Review on**

As PV installations proliferate across utility - scale solar farms, distributed rooftop arrays, and remote off - grid microgrids, the imperative for intelligent, real - time performance monitoring has intensified

### [Modeling and Analysis of Voltage Feasibility Problems for Cost](#)

We simulate the implementation of microgrids with PV generation using Alternating Current Optimal Power Flow (AC-OPF). The results of this thesis show the limits of feasible reactive power support

[When AI Predicts Grid Trouble, Microgrid Creates a Smart City at a](#)

At Florida International University (FIU), researchers are utilizing artificial intelligence (AI) as an important tool that creates new ways for microgrids to provides resilience, cut carbon emissions and

**How We Help , Aaron Michael**

Aaron joined FPL in April 2021 as a senior economic development project manager. In this role, he works with growing businesses looking to expand or relocate across the Sunshine State.

**Learn about Florida Entrepreneur Ian Aaron**

With an estimated 360 million streetlights worldwide, Ubicquia, led by veteran tech executive Ian Aaron, is utilizing existing infrastructure to upgrade and create "smart" cities overnight.
