

Free delivery of solar power

Overview

Browse solar panels, batteries, and inverters that ship free within the continental U. The short answer is that while no company gives away solar panels to own for free, there are absolutely ways to get a system installed on your roof with \$0 out of pocket. These "no-money-down" options are what the "free solar" ads are really talking about, and they make it possible for many . The California Public Utilities Commission (CPUC) and other agencies under the California state government offer programs that allow income-qualified residential customers to receive financial assistance on solar panel installations, battery installations, and energy efficiency efforts. These panels are engineered to provide reliable energy storage, ensuring you have power during outages or for off-grid use.
