

# Germany hybrid energy storage project construction

Nominal Capacity

**280Ah**

Nominal Energy

**50kW/100kWh**

IP Grade

**IP54**

## Overview

---

Statkraft has commissioned Germany's largest solar battery storage hybrid power plant in Zerbst under the Renewable Energy Sources Act (EEG). 4 MW solar . Built on a former gravel pit, the €45m (\$52. 14m) project will deliver around 50,000MWh of green power per year. Credit: Pedro de Paula/Shutterstock.

## Germany hybrid energy storage project construction

---

### 47 MW Solarpark Zerbst / Saxony-Anhalt ?? Germany's largest

The hybrid power plant, which is created on a former gravel pit with an output of 47 MW solar and 16 MW battery storage capacity, currently represents the largest project of its kind in

### Hybrid energy storage for more power and range

The "HyPowerRange" project funded by the BMWi aims to optimize the performance, capacity, cooling power requirements and costs of energy storage systems for battery electric vehicles.

### [Statkraft commissions Germany's largest solar battery storage hybrid](#)

The plant has been feeding energy into the grid since October 2025. The renewable hybrid power plant in Zerbst is the first of its kind for Statkraft - developed in-house and connected to

### [Statkraft commissions Germany's largest solar battery storage hybrid](#)

The modern, EUR 45 million hybrid power plant was built on about 41 hectares of the former gravel pit. The 46.4-megawatt solar farm generates almost 50,000 MWh of green electricity

### [Statkraft Launches Germany's Largest Solar](#)

### [Germany's largest solar battery storage hybrid plant commissioned](#)

Statkraft, thought to be Europe's largest producer of renewable energy, has commissioned Germany's largest solar battery storage hybrid power plant under the country's

### [Battery Hybrid Plant](#)

Statkraft has commissioned Germany's largest solar battery storage hybrid power plant in Zerbst under the Renewable Energy Sources Act (EEG). The project, developed in-house, marks

### [Germany's Largest Solar Battery Storage Hybrid Plant Commissioned](#)

The Zerbst hybrid plant demonstrates practical integration of large-scale solar generation with utility-scale storage, delivering both renewable power and essential grid-support services in one

### **Statkraft**

The plant has been feeding energy into the grid since October 2025. The renewable hybrid power plant in Zerbst is the first of its kind for Statkraft - developed in-house and connected to

### **Sunotec advances Germany's largest EEG hybrid power plant by**

Located on a 41-hectare former gravel pit, the site combines 73,000 solar modules with a capacity of 46.4 MWp and a 57 MWh battery energy storage system (BESS). The facility is designed
