

High-voltage photovoltaic energy storage cabinet for campsites

Overview

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an AC-powered air conditioner), and a fire protection system. HBOWA PV energy storage systems offer multiple power and capacity options, with standard models available in 20KW 50KWh, 30KW 60KWh, and 50KW 107KWh configurations. You can add many battery modules according to your actual needs for customization. Sustainable, high-efficiency energy storage solutions. It is built specifically for outdoor installation and integrates advanced LiFePO₄ battery . All-in-One battery and hybrid inverter. Designed for rapid deployment and flexible. IP55 rated, wide temperature range, supports parallel expansion up to 76.
