

Inquiry about 100kW power storage cabinet

Overview

THES38BA-100/215 air-cooled energy storage cabinet with 100kW/215kWh capacity. High-efficiency LFP system with >6000 cycle life for data centers, renewables, and backup power. This product is a representative of highly modularized and standardized RITAR POWER products, according to 3S (Safe/Strong/Smart) energy storage concept and Car specification level quality requirements; power shifting, combined new energy power generation, dynamic capacity-increasing and demand . Safe, long-life, efficient and high-income, easy-to-use and easy-to-deploy, and reliable brand Compact and Space-Saving Design - Optimized layout with a small footprint for flexible installation. Robust Build Quality - Precision manufacturing ensures long service life and stable performance in . 100kw 215 kwh battery storage cabinet integrates energy storage batteries, PCS modules,EMS,3-level battery management system, photovoltaic modules, distribution boxes,industrial air conditioning, etc. Through special pipeline design, the thermal management system is optimized to make the system . This state-of-the-art energy storage system harnesses the power of technology, making it an ideal choice for commercial energy battery storage.
