

# Is \$2 000 outdoor power supply enough

## Overview

---

Let's cut to the chase: A complete outdoor EV charging setup typically ranges between \$800-\$4,500. But why such a big difference?

It all comes down to three key factors: Pro Tip: Many states offer rebates covering 30-50% of installation costs. Powerful and Versatile: Designed to meet power demands for home backup, camping trips, and small businesses, the Jackery Solar Generator 2000 v2 has 3 AC ports with a powerful 2200W output and an impressive 2042Wh capacity. Plus, the USB-C PD 100W port activates efficient, lightning-fast charging . Our installed standby generators automatically sense when there's a power outage and keep your home running smoothly until it's restored. Let's take a closer look at the types of Generac generators that are suitable for a 2,000 square foot house. California's Clean Vehicle Rebate Project, for .
