

Israel's new energy storage power service

Overview

Israeli renewable energy company Nofar Energy Ltd will develop over 1 gigawatt-hour (GWh) of energy storage capacity across 60 locations in Israel. These locations belong to the retail chain Machsanei HaShuk. The estimated investment for the project is 500 million Israeli shekels (USD). Afcon Holdings has secured a \$24 million contract to build battery-based energy storage systems in Israel, as the company moves to strengthen its position in a rapidly growing sector. The project, with a total capacity of about 45 megawatts, will be carried out by a wholly owned subsidiary and is . Tzur Yigal, Israel, November 6th, 2025 - HiTHIUM, a leading global provider of long-duration energy storage technology, today announced a strategic cooperation agreement with El-Mor Renewable Energy, one of Israel's largest EPC. Grid energy storage (also called large-scale energy storage) is a collection of methods used for energy storage on a large scale within an electrical power grid. 1 . Israel's storage tender sets prices between \$0.0085 per kW, with kWh figures therefore at \$49.
