

# Latest photovoltaic panel inspection plan

## Overview

---

The template below provides basic guidelines for inspecting most residential rooftop solar PV systems (15 kW and under). They're also the key to unlocking peak system performance for your clients. We're talking about transforming inspections into a precision tool that directly impacts your bottom line and solidifies your . Before any solar system can be energized, it must clear a crucial milestone: the final inspection. This step-overseen by the local Authority Having Jurisdiction (AHJ)-ensures that the installation aligns with the approved plan set and complies with all safety codes. This presentation is based on the 2020/2023 NEC and 2021 IRC/IFC. 1A range of each other, assuming consistent weather conditions, and all string having same tilt and azimuth angle.
