

# Lima solar container communication station Flywheel Energy Storage is Easy to Use

ESS

## Overview

---

HJ-SG Solar Container provides reliable off-grid power for remote telecom base stations with solar, battery storage and backup diesel in one plug-and-play solution. In , operates in a flywheel storage power plant with 200 flywheels of 25 kWh capacity and 100 kW of power. Keywords -Energy storage systems, Flywheel, Mechanical batteries, Renewable energy. Why should you use a flywheel for solar . Newer systems use composite Flywheel Energy Storage Systems (FESS) rely on a mechanical working principle: An electric motor is used to spin a rotor of high inertia up to 20,000-50,000 rpm. Electrical energy is thus converted to kinetic energy for storage.
