

Moscow battery energy storage manufacturer

Overview

Rosatom 08 April 2026 15:57 The fuel division of Rosatom (the management company is TVEL JSC) has put into pilot operation Russia's first "gigafactory" of energy storage devices, built in the Neman district of the Kaliningrad region. The production capacity of the industrial site is four . The 5MWh Battery Energy Storage System (BESS), independently developed and manufactured by our company, has entered the delivery phase and is set to be shipped to the Central and Eastern European market for commissioning. The main product lines are ASTRA, TOPAZ, ESS. As a driver of the energy transition, we enable companies to use renewable energy freely .

Moscow battery energy storage manufacturer

[Rosatom has launched Russia's first "gigafactory" of lithium-ion energy](#)

This is the only large-scale industrial production of full-cycle lithium-ion batteries in the country, from primary chemistry for the battery cell to the creation of final modules and complete

GSL ENERGY's 5MWh Battery Energy Storage System (BESS)

I. Project Overview: 5MWh Battery Energy Storage System Set for Deployment in Central and Eastern Europe The 5MWh Battery Energy Storage System (BESS), independently developed

Moscow Photovoltaic Energy Storage Power Supplier: Trends,

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry

MOSCOW BATTERY ENERGY STORAGE CABINET

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV

Energy Storage Tech Startups in Moscow, Russia

There are 24 Energy Storage Tech startups in Moscow, Russia which include Electro.cars, AKB Trade, Hyper, KINETIC, EVServer. Out of these, 2 startups are funded.

Long-duration Energy Storage , ESS, Inc.

We build flexible storage solutions that allow our customers to meet increasing energy demand without power disruptions and maximize the value potential of excess renewable energy.

InEnergy Group

Integrated solutions in hydrogen energy Our group of companies has built up extensive competencies in the field of fundamental electrochemical research and introduction of products to the Russian and

Solutions for energy storage systems (ESS)

MKC Group of Companies is an official partner in energy storage devices built on CATL battery systems - a world leader in the production of lithium energy sources for electric transport and energy.

Moscow battery energy storage company

Discover MKS Group's cutting-edge energy storage solutions using CATL battery systems.

Ideal for industrial and commercial applications, our solutions enhance energy efficiency and reliability.

Energy Storage Systems For Renewable Energies

TESVOLT produces battery storage systems based on lithium batteries that can be connected to all renewable energies: sun, wind, water, biogas and thermal power.
