

Namibia solar module batteries

Overview

Various battery sizes ranging from 4kWh to 65kWh in most common system voltages of 12 VDC, 24VDC and 48VDC are available. Life expectancy of these batteries can be as high as 20 years. Lead acid batteries require regular maintenance, are bulky with smaller life expectancy . Renewable energy easily competes with most other sources and leaves our beautiful natural environment unharmed for our childrens children ! The sun shines for everybody, no privileges needed. no power lines attached or petrol pipes Your imagination is the limit! We will follow your requirements . Have any questions?

Talk with us directly using LiveChat. More specifically, most lithium solar batteries are deep-cycle lithium iron phosphate (LiFePO4) batteries, similar to the traditional lead-acid deep-cycle starting batteries found in cars. Ensuring at least 4000 cycles at 80% Depth of charge (DoD). 8V DC energy system with a . We provide EPC, IPP, O&M services, utility scale solar diesel hybrid solutions and battery storage systems for mines and for utilities and more.
