

New solar power generation for energy storage project in Italy

Overview

Discover how Italy's latest policies and auctions are driving utility-scale solar and battery storage projects to meet ambitious 2030 targets. Rome, April 2025 - In a bold move to meet its EU-mandated greenhouse gas emissions targets, Italy is accelerating its renewable energy strategy under the Integrated National Energy and Climate Plan (PNIEC Italy). a combined installed capacity of approximately 10 MWp. battery energy storage system ("BESS"). yield for photovoltaic . Futura Group, a Sardinia-based renewables developer with a focus on greenfield projects, has secured a loan of EUR 46 million (USD 53).

Acquisition of Solar & Energy Storage Project

strongest. This project reflects our disciplined approach to identifying opportunities with attractive risk-return profiles and scalable potential. As grid infrastructure and market mechanisms

[Futura borrows EUR 46m for solar-storage in Italy , Renewable Energy](#)

Futura Group, a Sardinia-based renewables developer with a focus on greenfield projects, has secured a loan of EUR 46 million (USD 53.7m) to fund the construction and

[Italy moves forward with energy storage with the approval of 800 MW](#)

The Italian government has authorized eight BESS projects that will strengthen the stability of the power grid. Companies such as Edison Next and GreenGo stand out in this initiative.

BESS plants for a more flexible power system , Enel Group

This is why battery energy storage systems (BESS) are playing an increasingly strategic role. In the first months of 2025, we took an important step in this direction, bringing five new plants

Italy Accelerates Solar Energy and Industrial Energy Storage

The government has set ambitious goals for increasing renewable energy on the national grid, with a particular focus on bolstering both solar energy and energy storage solutions tailored for

Italy approves 648 MW of new battery projects

Italy's environment and energy ministry has approved six utility-scale battery storage projects in Lazio, Campania, Basilicata and Puglia.

The rise of utility-scale PV + storage plants in Italy

Discover how Italy's latest policies and auctions are driving utility-scale solar and battery storage projects to meet ambitious 2030 targets.

[Italy: Zenith Energy announces acquisition of solar project and energy](#)

Zenith Energy has announced the signing of a new agreement to acquire a solar energy development project located in the Puglia region of Italy by its wholly-owned Italian subsidiary

[Nexta and Octopus secure green light for 50 MW storage project in Italy](#)

The Italian Ministry of the Environment and Energy Security (MASE) has approved a 50 MW battery storage project developed by Nexta Capital Partners and Octopus Energy Generation.

[Italy Approves 361 MW of Battery Energy Storage Systems to Boost](#)

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three regions-Lazio, Puglia,
