

Nissan solar cell energy storage panel

LiFePO₄ Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

Wall-Mounted&Floor-Mounted

Intelligent BMS

Cycle Life: > 6000

Warranty: 10 years

Overview

Nissan has unveiled a prototype Nissan Sakura EV with extendable solar panels on the roof. The panels add up to 1,800 miles of range without charging. The Ao-Solar Extender is the concept model of a solar-system designed to be mounted on the roof of the Nissan Sakura. - Nissan is partnering with Electrum to launch the NISSAN ENERGY Marketplace, a new one-stop-shop that helps consumers research, purchase and install home energy solutions such as electric vehicle chargers, solar panels and battery storage. So I spent months trying to find .
