

# Oman energy storage battery project construction

## Overview

---

A Masdar-led consortium has secured a significant 500 MW solar photovoltaic (PV) and 100 MWh battery energy storage system (BESS) project in Oman, marking a substantial step in the nation's energy transition. The project is part of the planned development of a 1.5 GW solar and battery storage project in the Al Dhahirah Governorate. The project is being developed by the Abu Dhabi Future Energy Company PJSC - Masdar, a global clean energy leader, and consortium partners Al Khadra Partners, Korea Midland Power Co. The consortium also includes Al Khadra Partners. MUSCAT: The China Power Engineering Consulting Group International Engineering Co (CPECC), a Chinese state-owned energy-sector engineering powerhouse, has been awarded an EPC contract to implement the Ibri III Solar Independent Power Project in Oman's Al Dhahirah Governorate.
