

Pond photovoltaic panel installation electrical appliance unit price

Overview

This typically translates to about \$2.50 per watt of installed capacity (more on price per watt below). The total price depends on your system size, location, roof type, and installer. An 8-kW system would cost about \$6,803 before the 30% federal solar tax credit is applied. Bear in mind that the figures above are averages. Solar panels cost about \$21,816 on average when purchased with cash or \$26,004 when purchased with a loan for a 7-year term. To verify or get additional information, please contact The Home Depot customer service. This comprehensive guide provides current pricing data from thousands of installers.
