

Purchase price of distributed solar modules in 2025

Overview

Solar module prices in 2025 have stabilized after years of dramatic fluctuations, with global wholesale prices ranging from \$0.28 per watt depending on technology, origin, and regional market conditions. TOPCon Technology Dominance: TOPCon modules have . Our deep supplier relationships, relevancy, and scale enable us to aggregate pricing, availability, and product and manufacturer data from across the market into a one-of-a-kind tool for solar module and energy storage buyers. For the fifth year of publishing the report, the findings point to opportunities . The US solar industry installed 11.7 gigawatts direct current (GWdc) of capacity in Q3 2025, a 20% increase from Q3 2024, a 49% increase from Q2 2025, and the third largest quarter for deployment in the industry's history.

Purchase price of distributed solar modules in 2025

PV spot price

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel

[Average distributed solar module price hits US\\$0.27/W in the US at](#)

The Anza report also highlights that heterojunction technology (HJT) modules remain the most expensive in the distributed sector, with an average price of US\$0.38/W.

Spring 2025 Solar Industry Update

Global polysilicon spot prices rose 12% in Q1 2025, from \$5.54/kg to \$6.24/kg. In Q4 2024, the average U.S. module price (\$0.28/Wdc) was down 3% q/q and about three times higher

Solar Market Insight Report Q4 2025

Residential system prices fell 3% year-over-year to \$3.35/Wdc as declining module and inverter prices offset the increase from the balance of cost categories. In contrast, system pricing for

Purchase price of distributed solar modules in 2025

US solar module prices climbed in the third quarter of 2025 as developers accelerated purchases to meet federal tax credit deadlines and navigate import restrictions.

U.S. Distributed Solar and Storage

The Module and Inverter Price Indices are based on data from SPV Market Research and Wood Mackenzie, with adjustments by Berkeley Lab in order to extend those indices back in time and to

[Policy deadline rush pushes U.S. solar module pricing up in Q3](#)

U.S. distributed generation solar module prices increased in Q3, 2025, likely due to policy deadlines and ramped up procurement strategies, said a report from supply chain platform Anza.
