Overview

Solar panel installations typically cost between \$13,962 and \$27,924 in 2026. The actual price tag depends on your home's energy needs, roof characteristics, local incentives and other factors, all of which we'll break down in this guide. Most installers price systems according to these factors. While the upfront costs of solar panels have dropped by over 70% in the past decade, a comprehensive lifecycle analysis includes several key components: initial purchase and installation (\$15,000-\$25,000 for an average home system), ongoing maintenance (roughly \$300-500 annually), inverter, and monitoring system. Switch to solar with a system built for you. Join over 8,000 people who received a free, no obligation quote in the last 30 days. While that price tag seems steep, the electricity bill savings you get from solar panels make them a worthwhile investment for most Americans. 50 per watt installed on average, with homeowners spending about \$3.
