

Romania solar energy market

Overview

The Romanian solar energy market comprises four primary segments:

Residential: Rooftop solar installations on homes and residential buildings. 78 gigawatt, growing from 2025 value of USD 6. This acceleration is powered by Recovery and Resilience Facility grants, streamlined . Romania is set for a significant expansion in the photovoltaic sector in 2025, driven by funding programs such as Casa Verde and RePower EU, the liberalization of energy prices, and a growing interest among Romanians in achieving energy independence. Several pressures have caused the solar industry to take note of Romania's increasing willingness to transition faster. External factors such as the war in .

Romania solar energy market

Solar Energy Market in Romania 2026-2034 Overview: Trends,

Romania's Solar Energy Market is set for substantial growth, with a projected Compound Annual Growth Rate (CAGR) of 18.5%. This dynamic sector, currently valued at 25.5 million in the

The analysis of photovoltaic systems and solar energy

Neomar Consulting carried out, between March-May 2025, the 4th edition of its market study in the field of photovoltaic systems and solar electricity in Romania.

Romania Solar Energy Market Share & Size 2031 Outlook

The Romania solar energy market size for PV is projected to grow at a 14.52% CAGR to 2031, propelled by rooftop incentives and utility-scale CfDs. Local module plants with a total annual

The evolution of Romania's Solar PV market

With an average of 1,900 to 2,400 annual sunlight hours, Romania has significant natural potential for solar PV development. Yet, the country has not set ambitious targets for renewable energy sources,

Romania Solar Energy Market Size & Share

Romania and the path to renewables: solar panels

Romania is undergoing a significant expansion in solar power within its broader energy transition framework, bolstered by European funding and legal reforms.

Romania Solar Market (2026-2032) , Trends, Outlook & Forecast

6Wresearch actively monitors the Romania Solar Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights

, Report 2031

The report on the Romania solar energy market includes an assessment of the market, trends, segments, and regional markets. Overview and dynamics have also been included in the report.

Romania's solar energy market set for rapid growth in 2025

Romania is set for a significant expansion in the photovoltaic sector in 2025, driven by funding programs such as Casa Verde and RePower EU, the liberalization of energy prices, and a

Romania installs 2.2 GW of solar in 2025

Romania added 2.2 GW of solar in 2025, according to figures from the Romanian Photovoltaic Industry Association (RPIA). The result marks a third consecutive year of growth in

Romania's Solar Energy Landscape: An Overview

This article will delve into Romania's solar landscape, providing a comprehensive overview of the current state of the market, government policies, and incentives, as well as the potential for future growth.
