

# **Serbia station-type energy storage system installation**

## Overview

---

GridFlex plans to install a standalone battery energy storage system with a capacity of 125 MWh near the city of Leskovac, in southern Serbia. The investment is estimated at EUR 17 million. Serbia doesn't have any utility-scale batteries, but many are in the project pipeline. Discover how Serbia is leveraging cutting-edge energy storage solutions to stabilize its grid and accelerate renewable adoption. Explore market trends, project case studies, and opportunities for global collaboration.
