

Singapore Energy Storage Container Equipment Company

Overview

Optimize your energy usage with our solutions. Innovative container battery storage for Singapore's . BECIS is a leading electric provider (EaaS), that offers sustainable distributed energy solutions to reduce complexity & risk for commercial & industrial clients. Green Tenaga brings over years of combined experience in BESS manufacturing with Singamas. Partner with Green Tenaga for expert regulatory know-how, ensuring seamless and . SEAGEN®, the first maritized lithium-ion battery system designed, assembled and type-approved in Singapore for marine propulsion, offers a flexible and modularized design. It enables installation and easy configuration of battery modules to meet varying voltage requirements across different marine . Hybrid Energy Storage Systems (HESS) integrate various generation, storage, and consumption technologies into a single solution, optimizing efficiency and reducing costs while offering sustainability benefits system, improving the overall benefits compared to a system that depends on a single . ZBC units are integrated with the ECO Controller TM, Atlas Copco's in-house developed Energy Management System (EMS) which can increase the power offering to meet the required demand based on the load profile.

Singapore Energy Storage Container Equipment Company

Energy Storage Systems

In Singapore, we operate Southeast Asia's largest energy storage system. The 326MWh system on Jurong Island supports the country's growing deployment of solar energy, while enhancing grid

Products

Our Li-ion battery portfolio covers cells, modules (24V, 48V), cabinets (indoor/outdoor) and containers, which offer customers excellent scalability and adaptability to a wide variety of requirements.

Green Tenaga , Advanced Battery Energy Storage Systems (BESS)

Green Tenaga is a leading provider of innovative Battery Energy Storage Systems (BESS) in Singapore, offering sustainable energy solutions for commercial, and industrial applications. Our cutting-edge

Container Energy Storage Systems

These container energy storage systems are ideal for demanding applications where other sources might be inefficient or unpredictable. All this is possible making operations easy thanks to our ECO

Hybrid Energy Storage System , Seapex Pte

Ltd 1

Hybrid Energy Storage Systems (HESS) integrate various generation, storage, and consumption technologies into a single solution, optimizing efficiency and reducing costs while offering

9j Energy

At 9j Energy, we specialize in container battery energy storage systems, actively participating in Singapore's electricity energy programs to promote sustainable energy solutions.

SynVista Energy

SynVista is an international company specializing in next-generation energy storage solutions that drive the global energy transition.

Top 100 Energy Storage Companies in Singapore (2026) , ensun

Identify and compare relevant B2B manufacturers, suppliers and retailers. The company is a key player in the energy storage sector, hosting Europe's first conference dedicated solely to this field since 2010.

Envision-Energy Storage System

With advanced battery management, power controls, and AIoT integration, it offers end-to-end services including delivery, installation, and long-term O&M. Envision's smart storage solutions enhance grid

Energy Storage - Sea Forrest

The Energy Cube(R) is a versatile, advanced peak-shaving and backup power solution designed for marine and offshore applications. It is housed in a robust 20-ft container or a customized enclosure
