

Solar glass volume

Overview

The global volume of Solar Photovoltaic Glass Market is expected to grow from 4842. Global solar PV manufacturing capacity has progressively moved from the US, Europe, and Japan to China over the last decade. 08 Million tons by 2031, at a CAGR of 18. 42% during the forecast period (2026-2031). Government-mandated local-content rules, anti-dumping measures, and targeted tax credits are . More than 70% of solar modules worldwide rely on specialized solar photovoltaic glass for durability and enhanced light transmission. Utility-scale solar installations contribute nearly 55% of overall demand, while non-residential applications account for about 30% and residential rooftops nearly . Current solar photovoltaic (PV) installation rates are inadequate to combat global warming, necessitating approximately 3. 4 TW of PV installations annually. This would require about 89 million tonnes (Mt) of glass yearly, yet the actual production output of solar glass is only 24 Mt, highlighting a . The global solar glass market size is projected at USD 10. As in India and China, new facilities are popping up in North America, with unique twists to ensure competitiveness, such as using recycled material.

Solar glass volume

[Review of issues and opportunities for glass supply for photovoltaic](#)

Low-iron sand is required for PV glass production, to make the glass highly transparent and reduce the absorption of solar energy. Additionally, glass manufacturing leads to significant emissions, with

Solar PV Glass Market Size & Trends , Industry Report, 2030

The global Solar PV Glass Market was valued at USD 10.08 billion in 2024 and is projected to reach USD 47.16 billion by 2030, growing at a CAGR of 29.5% from 2025 to 2030. Governments and

Solar Photovoltaic Glass Market

It includes detailed pricing information for Solar Photovoltaic Glass from 2020 to 2025, measured million square meters, and volume data in million square meters, region, and country-wise. This historical

No ceiling on U.S. glass opportunity

With PV module capacity ramping up, glass suppliers have been investing in new solar glass production capacity. As in India and China, new facilities are popping up in North America, with

Solar PV Glass Market Size, Share , Growth Report [2034]

The demand for solar PV glass is expanding rapidly, driven by accelerating global solar capacity additions, declining module costs, and robust policy support for renewable energy deployment.

Solar Photovoltaic Glass Market Size, Demand, Opportunities And

The global solar photovoltaic glass market size was valued at USD 17.04 billion in 2024 and is estimated to grow from USD 22.13 billion in 2025 to reach USD 179.08 billion by 2033, growing at a CAGR of

Solar Photovoltaic Glass Market

Solar Photovoltaic Glass Market is projected to reach USD 27.3 billion by 2028. Report provides crucial industry insights that will help your business grow.

Solar Photovoltaic Glass Market Size, Share Analysis & Growth

By application, non-residential installations commanded 81.43% of volume in 2025 and are expected to maintain an 18.78% CAGR over the forecast period. By geography, Asia-Pacific

Solar Photovoltaic Glass Market Size

The Asia-Pacific Solar Photovoltaic Glass Market commands approximately 43% global market share, representing nearly USD 66.00 billion in market size, driven by large-scale
