

# Solar power generation system installed in Karachi Pakistan

## Overview

---

As part of the ongoing empowerment of women engineers in Pakistan through the Ladies Fund Energy initiative, certified female engineers trained at NED University installed a 24-kilowatt solar system with six lithium batteries on the roof of the Hussaini Orphanage. As of 2025, solar power was the largest electricity source in Pakistan, accounting for more than 25% of total production in 2025. [2] In 2024, solar power installations in the country grew at a high rate with solar installations providing an estimated one-third of the country's entire generating . Feroze Power Limited is a leading renewable energy solutions provider in Pakistan, delivering premium solar power systems, wind energy solutions, and advanced battery energy storage systems for residential, commercial, and industrial sectors. With a strong focus on performance, reliability, and . Pakistan has witnessed one of the most rapid and unanticipated transitions to clean energy, driven largely by homes and businesses installing rooftop solar panels. Genesys have team for after sale services.
