

Solar support connecting plate

Overview

Photovoltaic Connectors are designed specifically to be used with solar panels. The types of connectors include combiner box, converter receptacle, end cap, female coupler, male coupler, junction box, and socket. □High-Quality Material□The solar panel mount is made of high-strength aluminum alloy AL6005-T5. □Intelligent Design□The solar panel mounting brackets ensures a secure and easy grip during the module . Optimize solar investment with our cost-effective mounts. Components are lightweight yet strong and corrosion-resistant. Versus rivals, installations impose less roof . Secure small and mid-size solar panels on RVs, boats, poles, balconies and outdoor enclosures with corrosion-resistant solar panel brackets and mounts designed for fast installation, stable tilt and long-term off-grid use.

Solar support connecting plate
