

Syria Wind Solar and Storage Project

Overview

Syrian Arab Republic, Energy Ministry and ACWA Power, a private water desalination company, and a first mover in green hydrogen recently signed a Joint Development Agreement (JDA) to study develop approximately 2.5GW of renewable energy projects, marking a significant step in Syria's energy transition. The JDA outlines the development of: - 1GW of solar photovoltaic (PV) capacity - 1.5 GW of wind capacity, supported by potential grid-scale storage solutions, along with the establishment of a national technical training center to prepare skilled . ACWA Power will collaborate with the ministry to find optimal locations for the proposed projects.

Syria Wind Solar and Storage Project
