

Tax planning for solar power generation

Overview

With a host of tax and incentive programs, there are many reasons for taxpayers to install solar power generation systems. The tax . These incentives raise tax planning issues that go well beyond those involved in general structural, choice-of-entity, and other financing considerations, and create the potential for significant economic benefit. The Inflation Reduction Act of 2022 ("IRA") makes several clean energy tax credits available to businesses. However, the advantages extend beyond income tax .
