

The company that sold all its photovoltaic panels

Overview

Following its bankruptcy, SunPower sold its assets to Complete Solaria for \$45 million. Complete Solar later sold the patents for its shingled solar modules to Maxeon, the panel manufacturing spinout of SunPower. SunPower Corporation, a once-mighty solar panel company based in Richmond, filed for bankruptcy on Monday in a Delaware court. It marks the end of the road for the 39-year-old business, which will now look to find buyers for its assets, pay back creditors and quell customers' uncertainties. The . The solar industry experienced exponential growth over the last decade as costs fell and favorable policies helped drive mass adoption. With solar and storage solutions offering "customers control over electricity consumption and resiliency during power outages while providing cost savings to homeowners," by 2020, SunPower was among the top . This is a list of notable photovoltaics (PV) companies. Grid-connected solar photovoltaics (PV) is the fastest growing energy technology in the world, growing from a cumulative installed capacity of 7.7 GW in 2007, to 320 GW in 2016.
