The latest solar power generation

7 New Solar Panel Technology Trends for 2026

Explore the latest solar panel technology, new solar panel technology, and solar energy technology trends improving efficiency.

Trends in PV Applications 2025

IEA PVPS has released its latest Trends in Photovoltaic Applications 2025 report, revealing that the world's cumulative installed PV capacity surpassed 2 260 GW by the end of 2024, marking a 29%

Solar Market Insight Report - SEIA

Solar accounted for 54% of all new electricity-generating capacity added to the US grid in 2025. Combined, solar and storage made up 79% of new capacity in this timeframe.

[Solar Technology Innovations 2025: Complete Guide to Latest Solar](#)

Discover the latest solar technology innovations 2025: perovskite cells, bifacial panels, advanced storage. Complete guide with free PVGIS calculator.

Quarterly Solar Industry Update

Each presentation focuses on global and U.S. supply and demand, module and system price, investment trends and business models, and

updates on U.S. government programs

[Solar energy is going to power the world much sooner than you think](#)

Is solar power going to take over the world? The past few years have seen a frankly astounding acceleration in the rate of its deployment, with total generation capacity doubling between

Solar Power World's Most Recent Solar News Updates

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

Today in Energy

A new project, Tehuacana Creek 1 Solar and BESS, adding 837 megawatts (MW) in Texas, is the largest solar photovoltaic project expected to come online in 2026; it will also offer an

Solar Energy News -

Solar Energy Information. Read the latest news and techniques for efficient solar photovoltaic power, new solar energy systems and more.

[Top 9 Solar Energy Trends & Innovations \(2025\). StartUs Insights](#)

This data-driven research on 3050+ solar energy startups and scaleups highlights advancements in off-grid solar energy, decentralized solar power, photovoltaics, perovskite solar
