

The salary of photovoltaic bracket production and commissioning workers

Overview

Salaries for entry-level roles in a solar bracket facility typically range from \$30,000 to \$40,000 annually, depending on the geographical location and specific company practices. Experienced professionals can earn up to \$80,000 or more. Wage and salary workers are workers who receive wages, salaries, commissions, tips, payment in kind, or piece rates. The group includes employees in both the private and public sectors but, for the purposes of the earnings series, it excludes all self-employed persons, both those with incorporated entities. The expansion of energy storage has led to significant job growth, reaching 93,497 workers in 2024, a 19.3% increase. The solar market was valued at roughly \$71.3 billion in 2024, underscoring the massive financial scale behind these workforce numbers. A US average of \$34 / hour for all private enterprises. This varies dramatically by role, experience level, and location, so we'll begin by breaking down by our "job category," which is how you can find more information. Assembly Bill (AB) 2143 (2022, Carillo) established Public Utilities (Pub. 2) requiring that, beginning on January 1, 2024, large customer-sited renewable electrical generation (solar or otherwise) facilities, and any associated battery storage, that enroll in tariffs designed for .
