

Two solar panels on a Ukrainian roof

Overview

A solar power plant on the roof of a residential building in Mykolaiv's Pivdennyi district has been launched. Kyiv (Ukraine) (AFP) - When Russian strikes cut off the power, heating and water to swathes of the Ukrainian capital in -20C temperatures, Denys Biletsky was prepared. Following a round of particularly intense Russian barrages two years earlier, Biletsky had convinced his neighbours to chip in together to install solar . ZHASHKIV, Ukraine -- Vadym Kolisnyk stands on a rooftop on the eastern edge of Zhashkiv. The sun has returned to Cherkasy Oblast. This is good news for Kolisnyk, for whom the sun is money. To at least partially shield themselves from power outages, some Ukrainians are turning to the sun. By April 2025, the investment company Dragon Capital will install solar panels with a capacity of 1.
