

# Ukrainian cabinet energy storage system company

Higher Anti-Rust Performance  
Lower Internal Impedance

## Overview

---

DTEK company, together with American Fluence, have completed the construction of the largest energy storage system (BESS) in Eastern Europe, which will provide Ukrainians with stable electricity supply even during Russian attacks. Let's cut through the voltage: Ukraine's energy storage industry is charging up faster than a Tesla at a Supercharger station. With rolling blackouts becoming as common as sunflower fields, the country's push for energy independence has turned battery storage from a "nice-to-have" into a national . The energy company plans to complete the installation of a series of energy storage systems by September 2025. According to DTEK on September 11, six . The power generation company Ukrhydroenergo and the World Bank signed a financial agreement on the project "Additional financing for the project "Ukraine - Increasing the resilience of the power system for European integration of the power grid (Installation of hybrid electricity generation systems .
