

# Weathering steel photovoltaic bracket production plant

## Weathering steel photovoltaic bracket production plant

---

### Development of low-cost weathering steel for photovoltaic supports

In this paper, three types of weathering steel were developed as substitutes for galvanized steel Q235. The mechanical properties and wet-dry accelerated tests were carried out for

### PRODUCTS

Solar photovoltaic bracket is a special bracket designed for placing, installing and fixing solar panels in the solar photovoltaic power generation system. There are three main types of photovoltaic brackets:

### Weathering steel photovoltaic bracket Guo Bin

Guannan Li's 4 research works with 1 citations and 76 reads, including: Development of low-cost weathering steel for photovoltaic supports  
Guannan Li's research while affiliated with

### PRODUCTS

The application of weathering steel for photovoltaic brackets not only eliminates the galvanized coating link, shortens the construction period and reduces the cost, but also avoids the environmental

### 2026 Industrial Strength SPA-H Weathering Steel Solar Bracket

Vertical integration: From steel coil to finished product under one roof. Advanced production: 6 automated production lines with 98.5% precision. Quality control: 12 inspection points, each

### **Photovoltaic bracket factory production process**

The installation selection of photovoltaic ground brackets is mainly based on factors such as the fixing method of the bracket, terrain requirements, material selection, and the weather
