

What are the new independent energy storage projects

What are the new independent energy storage projects

New independent energy storage power station

Why is Tesla building a large-scale energy storage facility in China? Their growing use helps stabilize power grids, prevent outages, and reduce reliance on fossil fuels. This project is Tesla's first large

[10 cutting-edge innovations redefining energy storage solutions](#)

From iron-air batteries to molten salt storage, a new wave of energy storage innovation is unlocking long-duration, low-cost resilience for tomorrow's grid.

Energy Storage Research , NLR

NLR researchers are designing transformative energy storage solutions with the flexibility to respond to changing conditions, emergencies, and growing energy demands-ensuring energy is

Energy Storage News , Today's latest by Renewables Now

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage

Top 109 Energy Storage startups 2026

These startups develop new energy storage technologies such as advanced lithium-ion batteries, gravity storage, compressed air energy storage (CAES), hydrogen storage, etc.

ENERGY STORAGE PROJECTS

Accelerated by DOE initiatives, multiple tax credits under the Bipartisan Infrastructure Law and Inflation Reduction Act, and decarbonization goals across the public and private sectors, energy storage will

Policy Shift Sparks China Boom in Independent Energy Storage

(Yicai) Dec. 12 -- Investment in independent energy storage projects in China has soared since the National Development and Reform Commission scrapped the previous rule requiring new renewable

New Energy Storage Technologies Empower Energy Transition

Based on a brief analysis of the global and Chinese energy storage markets in terms of size and future development, the publication delves into the relevant business models and cases of new energy

Energy Storage in 2024: Records, Innovations, and New Markets

Notable innovations in China in 2024 include the largest sodium-ion storage facility with a capacity of 100 MW/200 MWh and the first large project based on gravity-based energy storage

Biggest projects in the energy storage industry in 2024

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.
