Overview

As part of the East Micronesia Cable System, the first of four planned cable landing stations has been successfully installed in Pohnpei, FSM. This milestone marks a crucial step in enhancing digital connectivity across FSM, Kiribati, and Nauru through a state-of-the-art submarine . The East Micronesia Cable project is a four-year project that commenced implementation in 2022, with an expected delivery date of late 2025. The project is a joint initiative of . One of the Components of the Energy Sector Development Project (ESDP) is to improve the efficiency and reliability of electricity supply in the four State Utility Companies across the Federated States of Micronesia (FSM). Locate nearby towers to ensure stable mobile internet access. Setting a DAS to any other type will restore the main tower and delete the individual DAS elements.
