

Which company produces the glass used in solars

Overview

IRICO Group is widely recognized as one of the world's top solar photovoltaic glass manufacturers. It was founded in 1984 and is currently headquartered in Beijing, China. Solar photovoltaic (PV) glass is a specialized type of glass that integrates solar cells, which generate electricity from the sun's rays. This ground-breaking technology captures solar energy by coating a layer of translucent solar cells onto the surface of the glass, allowing it to turn sunshine into . Founded in 2009, Onyx Solar is a global leader in photovoltaic glass solutions for building-integrated photovoltaics (BIPV).
