

Zambia Solar Power Project

Overview

During construction, the project created over 1,200 jobs, with approximately 98% of the workforce sourced locally. It is expected to generate around 100 permanent jobs during operations. The project supports Zambia's goals of economic development, energy security, and climate change mitigation by promoting renewable energy integration and reducing carbon emissions. The Chisamba Solar Power Plant is a flagship project within Zambia's plan to install 1,000 MW of solar capacity by 2025. A secon.
